

DS-A1

COMPACT PHOTO PRINTER

The ultra compact self-service printing solution

An instant and personalized digital printing service: this is what consumers are now looking for. In order to seize these new market opportunities, DNP has designed a wide range of innovative products. The Fotolusio DS-A1 is one of the new products presented at the 2008 Photokina. An **all-in-one ultra compact solution**, the DS-A1 is an especially flexible and autonomous self-service station.

A new force for innovation in the world of photo printing, Fotolusio is also a fully-fledged photo brand that enables professionals to generate traffic at their points of sale. Aesthetically pleasing, ergonomic, user-friendly and particularly compact, the DS-A1 is one of **the easy-access self-service dye sublimation printing solutions** developed by DNP

Combining high value added services such as **multiple print sizes** (from 9 x 13 to 15 x 23), index prints and creative frame prints, the DS-A1 is a **highly qualitative** self-service station **with a wide range of functions**. It **loads pictures rapidly**, whatever the digital source (memory card or USB key) and **produces 10 x 15 prints in less than 10 seconds**.

Fitted with a **wide touch screen** and a simple, user-friendly order-taking software program, the latest in the range of all-in-one mini stations is completely self-sufficient. Using the self-service method without any connection to a computer, customers can directly **select, modify and customize their pictures from the control screen**: cropping, retouching, enlarging, reframing, etc.

In addition, the Fotolusio DS-A1 makes it possible to print ID photo sheets very simply. This highly convenient service enables the instant printing of photos for all official documents (ID cards, passports, driving licenses, etc.)

Multiservice and interactive, the Fotolusio DS-A1 is a new generation self-service station requiring little investment and little maintenance. This flexible mini station is an indispensable printing solution, as a complement or as a main production centre, for all professionals who seek printing tools offering all the services of a kiosk for a minimal footprint.

Points to remember

About DNP Photo Imaging Europe

Since October 2007, DNP Photo Imaging Europe, a subsidiary of Japanese giant DNP, has become a new force for innovation and distribution in the world of photography. Based in France, DNP Photo Imaging Europe is in charge of the distribution of DNP products and services in 40 European and Mediterranean countries. With one of the most complete range of consumables in the market, DNP Photo Imaging Europe has developed comprehensive solutions covering the needs of thermal sublimation printing and those of traditional photofinishing (minilab and industrial laboratory).

Bolstered by its range of products, DNP Photo Imaging Europe intends to play a major part in the evolution of the photo print market. With innovative solutions on the technical level as well as for financing installations, DNP Photo Imaging Europe brings a new dynamic to distribution networks in their approach to photo printing.
